

Free Admission to Ladies and Girls

MATINEE TOMORROW
(Monday Afternoon)

The Celebrated "Lynch Trio" AT THE BIJOU

At a big expense we have secured the celebrated "Lynch Trio" of Boy and Girls singers for this coming week at The Bijou theatre; and in order that every girl and her mother may hear them tomorrow, we have decided to throw open our doors to the Afternoon Matinee and admit them to that performance absolutely FREE of any cost whatever.

This trio of singers is composed of two little girls and one brother, who are accompanied by their parents wherever they go; and as they have been singing on the "Big Vaudeville Circuit," they have been "traveling some." They are always in such great demand that an order for them has to be in for some time before they can be secured.

Our confidence in their ability to please you is so great that we are admitting the ladies and girls FREE this first Matinee, believing that you will be bound to come back to hear them again and again.

Matinee Prices to all (except as mentioned above)..... 10c Night 15c

Usual Moving Picture Program, As Usual

FASHION NOTES AND NEW RECIPES

TIMELY NOTES ON FASHION

The top coat is an important feature in ones winter wardrobe. Some delightfully comfortable ones are pictured in the different fashion magazines. A very smart model is of midnight-blue chinchilla or zibeline. It can be made in long or medium length. It fastens up to the neck, and is finished with a high turn down collar, the sleeves are one piece models, with large turn-back cuffs. A deep belt and pockets, complete this becoming and useful garment. But let me warn women who are the least bit stout, to leave the wide belt severely alone, it makes them look like a moving column, and is supremely uncomfortable.

A very attractive one, that is admirably suitable for stout figures, has a fitted back with loose fronts, and the popular convertible collar of corduroy or heavy tweed, it would not only be a coat of smartness, but of decided usefulness.

The chin high collars for street wear are a happy relief from the open necks of last winter. They are extremely becoming to the slender women, even those of us who have more neck than is really necessary. Should be glad of the change. We can warily tuck or chin in the deep and comfortable collars, and rejoice instead of having chilly wind that blew, turning us into a purple statue of discomfort.

Now that the waist line is once more visible, belts and buckles are coming into their own again, some charming effects are to be seen in white kid, with straps of patent leather or in gray and white, and tan color. Those who have the silver buckles that were so fashionable some years ago, are lucky. They are very effective on belts and can be used in a most fetching manner, on either hats or the one-piece dress. I saw a most charming gown for the afternoon at home of a dull blue, not dark, but a lovely rich shade, it was trimmed with bands of silver embroidery, the front was draped across, and caught at the left side by a silver buckle.

The evening dresses are exquisite, there is a strong wailean effect in many of them, the lace and net over dresses, or tunics are looped at the sides to puff out slightly, a panner design that is quaintly pretty on slender figures. A most sumptuous reception gown for an older woman is one of velvet and beaded net. The net formed the waist and tunic, the latter hung straight from waist to hem of satin under skirt, where it was caught up slightly by jeweled roses, the velvet was caught by a point to the middle of the back, brought under to the waist, forming a butterfly front, there swept to the ground—a long pointed train, the sleeves were of plain net running into a lace edge. They were long and wide falling in points, jeweled roses and tassels ornamented the waist.

THE DELECTABLE NUT

Some years back, nuts were supposed to be a Christmas commodity, you bought them when you bought the firecrackers, nuts, Christmas and fire crackers were synonymous, particularly to children, now they are an every day article of food, indeed food specialists say we do not use the enough. They are continually recommending them as a health giving article of diet. They are not only good in themselves but improve every thing they are put in. Nut bread is so familiar to all housekeepers, that it need not be repeated, but I have found some very delicious recipes, which I think will be no wto most of my readers.

WALNUT BALLS

Season cold hominy very highly, with pepper, salt and butter, form into balls, roll in crushed walnuts and fry. This is a delightful relish.

CHESTNUT STUFFING

Brown a chopped onion in butter, peel and crush some boiled chestnuts, place both in a hot buttered saucepan, let simmer fifteen minutes. Season with salt and pepper. Fine for Turkey.

HICKORY NUT CAKE

One half cup of butter, two cups of sugar, and four eggs, beaten separately; three cups of flour, one-half cup of sweet milk, two teaspoonsful of baking powder, one spoonful of vanilla extract.

PECAN FILLING

This makes a most delicious filling for a cake, as it is also filling, it can be used to cover the cake. Chop two cups of nuts, and soak them in water six eggs, stir them into the whites of six eggs, beaten stiff with powdered sugar. Put the whole pecan kernels over the top of cake while the icing is soft.

A Successful Memory System.

The late Horace Hutton used to say that having to take a little trouble would impress a fact on any one's memory so that he would never be able to forget it, says The Youth's Companion. In illustration he would tell this story:

"Our waitress, Maggie, could never remember to put salt on the table, and time after time, Mrs. Hutton would remind her to do it. One morning it was absent, as usual, and I said, 'Maggie, where is the step-ladder?'"

"It's in the pantry, sir."

"Please bring it in, Maggie, I said kindly."

"Maggie brought it in with a look of wonder on her face."

"Put it right beside the table, I commanded; and when she had done so I added, 'Now I want you to climb up to the top of it, look all over the table and see if there is any salt there.'"

"Maggie never forgot the salt again."

Miss Gertrude Barker as "Barbara Worth" Anderson Theatre Matinee and Night, Wednesday Nov. 3rd.

: MILL NEWS :

T. A. Hightower has been promoted to superintendent of the Beaver Dam mills, Edgefield.

G. W. Yelton of Cowpens is now fixing looms at night at the Wallace mills, Jonesville.

L. L. Clippard has resigned as superintendent of the Beaver Dam mills, Edgefield, and accepted a similar position at the Enoree Mfg. Co., Enoree.

W. E. Burt has resigned as overseer spinning at the Inman mills, to accept a similar position as the Drayton mills, Spartanburg.

STRIKE IN GREENVILLE

Demands of Employers Were Not Recognized by Mill Management.

Following the refusal of the management of Judson mills, Greenville, to acquiesce in the demands of certain employees of the weavers room that several operatives recently discharged be reinstated, a considerable part of the help in the weaver room, struck Friday morning at 11 o'clock. Of the 185 weavers, it is said that 110 declined to take part in the walk-out. No employees of any other room in the mill participated in the disagreement.

The demand of the operatives was that certain weavers be reinstated, thus granting passive recognition of the Textile Workers of America, a branch of which has recently been organized at the Judson mill. The weavers whom the committee would have had re-instated were discharged for actions injurious to the mill, according to information secured Friday night.

The operatives went to President B. E. Geor Friday morning and presented their demands. The president did not see fit to grant what they asked, and in pursuance of their determination, some of the weavers refused to work. Unless the number of strikers be augmented considerably the mill will not close down, nor will its operations be seriously curtailed.

There was no question of hours of work, or of working conditions, nor was there disagreement on any issue, save that of the discharge of the men.

The union at Judson mill is the same as that which exists at the Brogan mill in Anderson, where a strike is now on.

It has not developed whether the strike will become general.

SEND ONLY ONE DELEGATE

Fall River Man Attending Annual Convention in New York.

Providence Journal, Oct. 6.

James Tansey, first vice president of the United Textile Workers of America, left last night for New York city to be present today at the final meeting of the executive council of that organization and also to attend the annual convention of the international union, which will open in New York Monday morning.

He is the only Fall River delegate attending, being sent by the A. C. R. S. Union. The loom fixers and spinners have not sent delegates, the former association having withdrawn some months ago, and the spinners having decided that they would not be represented this year.

There was a time when the Fall River delegation was the largest at the convention, as many as 20 delegates making the trip, but lately dissatisfaction with the policies of the international union resulted in some of the organizations severing connection.

The most important question to come before the convention will be the proposition to increase the amount of the per capita tax. This resolution was lost by a close vote one year ago, but the belief now prevails that the increase will go through at the coming deliberations. In such event there is little question but that the Carders' and Spinners' unions will withdraw, as their system of trade benefit payments will not permit the extra expense which would be incurred in the event of the per capita tax being increased. The outcome is awaited here among textile operatives with considerable interest.

The supply has hitherto come from one firm in Chicago, but contracts are about to be signed with the London agents of other Chicago firms.

Owing to the small amount imported and to the fact that the experiment has been on five weeks on trial no effect on prices has been registered as yet. It is anticipated that as the good quality of the meat becomes more widely known this effect will begin to operate. The price of the frozen meat at present is slightly below that of French grown meat, namely 14 to 16 cents per pound, as compared with eighteen and twenty-two cents for French.

PARISIANS LIKE OUR FROZEN BEEF

Paris, Oct. 9.—The first consignment of seventy-two tons of American frozen beef has proved greatly to the taste of Parisians. About 4,000 pounds are sold daily at the central market, Les Halles. The commissary in charge says the meat is highly spoken of on all sides and as particularly suitable for grilling and roasting.

The supply has hitherto come from one firm in Chicago, but contracts are about to be signed with the London agents of other Chicago firms.

TODD AUTO SHOP

Opposite The Palmetto N. Main.

The greatest thing in modern feeding is MOLASSES. It cuts down the feed bill and builds up the stock.

RED SHIRT HORSE AND MULE MOLASSES FEED

It's something the horses and mules like—gives them an appetite—starts the saliva running and aids digestion. Far superior to an all grain feed. Give your horses and mules a treat, and at the same time save money.

Our RED SHIRT (first grade) Horse and Mule Molasses Feed contains Corn, Oats, Ground Alfalfa, made appetizing with salt and pure cane molasses, and analyzes as follows:

Protein 10%; Fat 3%; Fibre 12%; Carbohydrates 57%

PIEDMONT HORSE & MULE MOLASSES FEED (Second Grade) — Analysis: Protein 10%; Fat 3%; Fibre 12%; Carbohydrates 57%

SWAMP FOX HORSE & MULE MOLASSES FEED (3rd Grade) — This analysis: Protein 9%; Fat 2%; Fibre 12%; Carbohydrates 55%

PERFECTION HORSE & MULE FEED (Dry Mixed) — We manufacture also a dry mixed (no Molasses) Horse and Mule Feed, which analyzes: Protein 11%; Fat 2%; Fibre 12%; Carbohydrates 57%. This is composed of straight grain and ground Alfalfa Meal.

RED SHIRT DAIRY FEED

First Grade: A balanced ration containing Molasses. Cattle are very fond of it—keeps them in good condition. Increases the flow and enriches the quality of the milk at a reduced cost of feeding. Contains ground Corn, C. S. Meal, Wheat Middlings, Ground Alfalfa, Pure Cane Molasses and Salt. Analysis: Protein 15%; Fat 3%; Fibre 12%; Carbohydrates 55%.

Second Grade — Analysis: Protein 12%; Fat 2%; Fibre 12%; Carbohydrates 54%.

A combination of Digestive Tonic, Ground Corn, Rice, and other ingredients. Keeps the system in good condition.

SEVEN EGGS A WEEK — NEW WASH — Composed of Ground Corn, Ground Oats, Ground Wheat, Parley, Molasses, Ground Alfalfa, Pure Cane Molasses and Salt. Analysis: Protein 12%; Fat 2%; Fibre 12%; Carbohydrates 55%.

As shown in the bag in one of our feed is made from Carolina molasses, even to the h— and twine. We are, therefore, in the market for Oats, Corn, Wheat, Alfalfa Hay and any other kind of Hay.

We carry a full stock of GRAIN, HAY and STRAW.

Our feeds as shown above are mixed on scientific principles by formulae available throughout the Southern States. Let us show you how to get your feed bills down. Write us for prices, etc.
